## VISITORS SURVEY

### FIRST QUARTER 2010

The first Visitors' Survey for 2010 was conducted from 22<sup>nd</sup> March to 28<sup>th</sup> March 2010 and covered a sample of 1376 departing visitors travelling on all the airlines during that period of time. Surveys are conducted on a quarterly basis and below are the findings for the first quarter.

Figure 1

The graph in Figure 1 is showing the percentage of visitors captured during the first quarter of the exit survey as compared to the actual percentage of visitors that arrived during the first quarter of 2010, with visitors coming from France being the highest followed by Italy. The percentages of surveyed visitors are higher for France, Italy and Africa than the actual, which is due mainly to the scope of visitors surveyed.
