

1. INTRODUCTION

This bulletin presents a series of annual crime justice and security (CJS) statistics for the period 2010-2013 and quarterly figures for 2014. The data used in the compilation are from the following CJS sources: Police Department, Employment Department, Judiciary, Employment Tribunal, Family Tribunal, Prisons and Probation. However, the period of reporting varies as can be seen in the respective tables.

A: POLICE

Information from the Seychelles Police relates to the number of police cases by crime category. These are namely "Police Generated cases" which result from police surveillance and "Reactive cases" which relates to police responding to public calls for help.

B: JUDICIARY

From the Seychelles Judiciary, the data is from the Court of Appeal, Supreme Court and Magistrates Court. Numbers relate to cases disaggregated by type of cases received, by court type and number of criminal cases completed.

C: EMPLOYMENT DEPARTMENT

The Employment Department deals with workers grievances through the "Mediation" and "Prosecution & Enforcement" mechanisms. The department handles grievances through mediation which is the starting point for all grievances. If a case is not settled through the mediation process it is pushed to the Prosecution & Enforcement Unit and individuals who fail to settle their cases are given certificates to

register their cases with the Employment Tribunal within 30 days. The reported include numbers of cases received and handled by both the Mediation and Prosecution & Enforcement sections. They also include numbers of people involved by sex.

D: TRIBUNALS

Tribunal cases refer to the number of cases received by the Employment Tribunal and Family Tribunal. The latter provides information on cases which relate to the number of Children Act cases and Family Violence cases.

E: PRISONS

Seychelles prisons data includes number of receptions distributed by age group, sex, crime type and status. The data also shows the distribution of convicted prisoners by sex, age group and offending history. Total prison population is also compiled every end of month disaggregated by sex, age group, and district of origin.

F: PROBATION

The Probation Services Section data includes number of clients referred by Court, Family Tribunal and Non-Court¹ referrals.

¹ Non-Court referrals constitute cases where applicants refer themselves (or cases) to the Probation Department of their own free will.

2. TABLES AND CHARTS

3. CONCEPTS, SOURCES AND METHODS

The Crime Justice and Security Statistics comprise of administrative data from the stakeholders (*Police Department, Attorney General's Office, Employment Department, Judiciary, Employment Tribunal, Family Tribunal, and Probation*). Departments compile and submit reports to NBS on a monthly basis.

Computerization of data capture processes has been emphasized for ease of compilation and to improve on the quality of data. Over 50% of the stakeholders have computerized data capture systems while others are still using manual registers.

The NBS takes into account the number of criminal cases registered and cases handled to conclusion by the different stakeholders.

The crime rate is calculated from information on registered number of criminal cases obtained from the Police.

In its endeavour to strengthen and assist in the development of the NSS, the NBS is supporting and encouraging departments to produce age and sex disaggregated data.

4. NEXT RELEASE

The next Crime Justice and Security Statistics bulletin will be released on 28th November 2014.
